

Web Transition Specialist (temporary, part time role)

Hiring a part time (15-25 hours/week) temporary (up to 3 months) Web Transition Specialist to work in our Auburn Massachusetts location to help convert our website to a new format utilizing open source software. This is an implementation role only (not a design role). Very high level of attention to detail is an absolute requirement of this position. Extensive knowledge and experience with Google Analytics desired.

All work needs to be conducted in our office during our normal business hours of 8 am – 5 pm Monday to Friday. This role is not eligible for remote work.

Required Education/Experience:

- Minimum of Bachelor's degree in related field
- 5-10 years of demonstrated experience utilizing HTML and design software
- Ability to work within a team environment and take direction
- Top notch computing skills with Microsoft products
- Excellent written skills and strong attention to detail

PI (Physik Instrumente) is a leading manufacturer of precision motion systems including Piezo Nanopositioning Stages, Air Bearings, Microscope Stages and Motion Controllers. Applications include photonics, bio-nanotechnology, medical devices, adhesive dispensing and semiconductor manufacturing. PI has over 40 years' experience developing and manufacturing ultra-precision products with piezoceramic and electromagnetic drives. PI has been ISO 9001 certified since 1994 and provides innovative, high-quality solutions for industrial and research customers. PI is a global company with eleven subsidiaries, design & manufacturing centers on 3 continents and total staff of 1,000 people.

We offer a pleasant, team oriented and challenging work environment. This position is not eligible for benefits due to the temporary nature of the work.

Please forward resume, cover letter and compensation expectations addressing the above requirements and please reference job requisition 180102
